## Education

### IMS Engineering College

Bachelor of Technology in Computer Science

Oct 2021 – May 2025

Ghaziabad, Uttar Pradesh

### ST Mary's Convent School

Intermediate (82%)

Mar 2020 – Apr 2021

Agra, Uttar Pradesh

### ST Mary's Convent School

High School(86%)

Mar 2018 – Apr 2019

Agra, Uttar Pradesh

## Relevant Coursework

- Data Structures
- Algorithms Analysis
- Web Development
- Computer Architecture
- Software Methodology
- Database Management
- Artificial Intelligence

## Experience

### SARP Solutions

Jul 2024 – Aug 2024

Web Developer Intern

Ghaziabad, Uttar Pradesh

- Redesigned and enhanced the company website using HTML, CSS, JavaScript, and React.js, improving page load speed by 35 percent and increasing visitor retention by 20 percent.
- Revamped website architecture using React.js, creating dedicated columns for services and courses; improved user engagement by 40 percent based on time-on-page analytics, and a 25 percent decrease in bounce rate.
- Developed five reusable React.js components for the company website, decreasing development time for similar features by 15 hours weekly and standardizing the user interface across all pages.
- Fixed UI bugs and improved page responsiveness for better cross-device compatibility.

## Projects

### Gaming Hub | ReactJS, TypeScript, Chakra UI

Aug 2024 – Sep 2024

- Engineered a responsive user interface (UI) utilizing React.js and, optimizing state management and component reusability; this resulted in a 40
- Optimized state management, reducing load times by 50% and improving responsiveness.
- Integrated REST APIs to fetch game data, enhancing data retrieval efficiency by 30%.
- Improved UI accessibility with Chakra UI, reducing navigation time by 30 percent and increasing user satisfaction scores.
- Live: [Gaming Hub](#)

### AI-Powered Code Reviewer | MERN Stack, Google Gemini API

Feb 2025 – Feb 2025

- Developed an AI-driven code review tool that analyzes and provides feedback on various programming languages.
- Designed a user-friendly interface with React.js, increasing user engagement by 30%.
- Integrated Google Gemini API to deliver real-time suggestions for improving code quality, performance, and security.
- Built a responsive and intuitive UI using React.js for seamless user interaction.
- Implemented a backend with Node.js and Express.js to handle API requests, user authentication, and database management.

## Technical Skills

**Languages:** Java, Python, C, HTML/CSS, JavaScript

**Web Development:** ReactJs, NodeJs, ExpressJs, Bootstrap, Chakra UI, Tailwind CSS

**Tools & Technologies:** Git, GitHub, VS Code, Postman

**Soft Skills:** Analytical Thinking, Collaborative Development, Task Prioritization, Project Coordination

## Leadership / Extracurricular

- **Hackathon Team Lead-** Led a team of three participants in a high stakes hackathon, overseeing project planning, task delegation, and team coordination
- Represented AKTU University in intercollegiate football (2022 – 2023), showcasing teamwork and leadership.

## Certifications

- **Alpha 2.0** – DSA with Java (2023)
- **Hackathon Participant**– Noida International University, Sharda University
- **Employability Certification** – TCP Global (2023)
- **Cyber Security Training** – One-Day Program (2023)
